## PROFILE

I am a multifaceted Information Technology Executive with a diverse background in backend development, IT infrastructure, and web management. Currently at Invenio Potentials, I oversee the company's IT infrastructure, from network setup to server management, while also contributing to mobile app development. Prior to this, I excelled as a Senior Programmer, where I led the transition from Laravel to Next.js, and as a Webmaster cum IT Support, managing website operations and internal tech support. Committed to team collaboration and continuous learning, I strive to leverage technology as a tool for organizational success.

## ALMA MATER

### Sijil Vokasional Malaysia (2016 - 2018)

SVM in Database Management & Web Application System  
KV Perdagangan Johor Bahru

### Diploma (2018 - 2020)

Diploma in Computer Graphic Design  
Cosmopoint College Johor Bahru

### Bachelor's Degree (2021 - 2025)

Bachelor Degree in Information Technology (Hons.)  
Open University Malaysia

## EMPLOYMENT HISTORY

(Oct, 2023 - Present)

**Invenio Potentials Sdn. Bhd.**  
IT Executive

- **Infrastructure Guru:** I'm the go-to person for everything that involves our company's IT infrastructure. From setting up networks to managing our hosting and servers, I make sure everything runs smoothly so our team can focus on what they do best.
- **App Developer:** Besides keeping our tech in check, I also get to channel my inner coder by developing mobile apps for the company. It's a great mix of managerial and technical roles that keeps my days exciting!
- **Team Collaboration:** I work closely with all departments to identify their tech needs and create solutions that propel us forward. It's all about making technology an enabler, not a barrier.
- **Continuous Improvement:** The tech landscape is always changing, and so am I. I'm committed to staying up-to-date with the latest trends and technologies to make sure we're always at the top of our game.

(Jul, 2023 - Present)

**Mahiran Digital**  
Laravel Developer (Remote)

- **Website/Interface Design :** Collaborating with designers and UX/UI teams to create user-friendly interfaces for websites and web applications.
- **JavaScript Development :** Implementing interactive elements and dynamic functionality using JavaScript. This may include creating animations, form validation, event handling, and integrating with back-end APIs.
- **Performance Optimization :** Identifying and resolving performance issues, including optimizing page load times, minimizing file sizes, and leveraging caching techniques.
- **Collaboration and Communication :** Collaborating with back-end developers, designers, and other team members to ensure effective communication and coordination throughout the development process. Participating in meetings and providing input on project requirements and feasibility.

(Jan, 2021 - Sept, 2023)

**City University Malaysia - Johor Bahru Campus**

**IT Support cum Web Developer**

- **IT Support:** Keep all campus IT systems up and running, making sure everything is working as it should.
- **Software & Hardware Maintenance:** Install and set up any new software or hardware needed for better performance.
- **Field Support:** Help end users directly, solving any IT problems they might encounter in real-time.
- **Website Management:** Ensure the website stays live 24/7 for uninterrupted access.
- **Hardware Optimization:** Tweak hardware connections to keep systems running smoothly without hiccups.
- **Tech Strategy & Budget Oversight:** Develop plans that use technology to meet the business goals of the organization. Keep an eye on IT spending to make sure we're getting good value and return on investment.

**Special Projects:**

1. **Online Visibility:** Work on boosting our presence on social media and in Google search results.
2. **Mobile Legends Championship:** Collaborate with PPD Johor to host a district-level Mobile Legends event.
3. **Selangkah Ke IPT (SKIPT):** Lead a program that prepares students for higher education.
4. **School E-Sports:** Organize e-sports competitions at the school level to foster talent.
5. **5K Fun Run:** Host a community-engaging 5K fun run event called "You Better Run".

(January, 2019 - Present)

**Payong Legam Malaysia**

**Associates Developer**

- Collaborate with senior developers and cross-functional teams to design, develop, and maintain applications.
- Assist in translating user requirements into technical specifications and code implementations.
- Write clean, efficient, and well-documented code following established coding standards and best practices.
- Participate in code reviews to ensure code quality, consistency, and performance.
- Contribute to the design and architecture discussions of software solutions.
- Debug and troubleshoot software defects and issues, providing timely resolutions.
- Perform unit testing and support integration testing efforts to identify and address any software defects.

(November, 2018 - December 2020)

**H&M Retail Sdn. Bhd.**

**Sales Advisor**

- Deliver excellent customer service by greeting, assisting, and responding to customer inquiries
- Assist with inventory management, including receiving and processing merchandise, and preparing products for display
- Work in a team-oriented environment and collaborate with colleagues to ensure that the store meets company standards
- Attend training sessions to learn about new products, services, and sales techniques
- Adhere to safety and security protocols at all times
